**Subject:** RE: Publication in J. of Physiology

Thank you for your message. Attached is a pdf (not very good I am afraid) of the abstract to which you refer. This was presented at the Physiological Society Meeting, in conjunction with the Spanish Physiological Society, at the University of Liverpool, 27-29 April 1998. The Journal of Physiology volume in which it was published is dated June 1998. I hope that this information is helpful. Best wishes, Linda Rimmer

**Subject:** Publication in J. of Physiology

For patenting purposes, I am trying to locate information of a publication made by the inventors. The publication was Riemen et al., J. Physiology, 509P:81P(1998).

If you could provide me with information as to when and where this presentation was held and whether the publication would have been dated at the time of the meeting (April 1998) or would have prepublished, it would be very helpful.

I was unable to locate this information using your web page.

Thank you.
